

WashBoss Quad Complete Professional Washing Machine

The WashBoss Quad Complete washing machine is specially developed for professional cleaning of SCBAs with breathing cylinders. The SCBAs will be cleaned while they are still under pressure with the cylinders attached. In addition, helmets or full-face masks can also be washed in this machine.

Benefits

Efficient cleaning under pressure

The WashBoss Quad Complete is designed to clean Self-Contained Breathing Apparatus (SCBA) while they are still under pressure with the cylinders attached. This feature ensures that the cleaning process is both efficient and safe, maintaining the integrity of the equipment and reducing downtime.

Versatile cleaning capabilities

In addition to SCBA, the WashBoss Quad Complete can clean helmets and full-face masks with the proper accessories. Helmets can be placed individually on the pull-out frame, and masks can be cleaned using standard mask baskets or the 18-pin mask frame. This versatility makes the WashBoss Quad Complete suitable for a wide range of cleaning needs in professional settings.

Automatic water level control

The WashBoss Quad Complete features an automatic water level control system that maintains the optimal water level in the wash tank. This system includes a low-level cut-out and overflow protection, ensuring consistent cleaning performance and preventing water wastage.

Adjustable wash and rinse cycles

The WashBoss Quad Complete offers adjustable wash and rinse cycles, allowing users to customize the cleaning process according to specific requirements. With cycle times of 5, 10, and 22 minutes, and adjustable temperatures up to 130°F, the machine provides flexibility and efficiency for various cleaning tasks.

High-quality materials and construction

Constructed from high-grade stainless steel, the WashBoss Quad Complete is built to last. The use of stainless steel ensures durability and resistance to corrosion, making the machine a reliable choice for long-term use in demanding environments.

Energy-efficient heating system

The WashBoss Quad Complete is equipped with an energy-efficient heating system that quickly and evenly heats the water in the wash tank. This system reduces energy consumption and operational costs, making the WashBoss Quad Complete an eco-friendly and cost-effective solution for professional cleaning.

Technical Data

Specifications

Dimensions inches	External: 70.86 (94.88*) x 52.55 x 33.46 Internal: 26.6 x 40.55 x 24.01
Weight	881 lbs
External Machine	grinded stainless steel type 304
Internal Machines	stainless steel type 304
Doors	1 piece, vertical closing (front loader), with 2 handles and door Security/Emergency stop
Wheels	4 castors
Control	Siemens PLC
Wash pump power	2.2 kW
Wash pump capacity	224 gallon/ per minute at 22 PSI
Wash tank capacity	24 gallon
Wash Heating	9 kW
Three wash cycle times	5, 10 and 22 minutes
Wash temperature	adjustable up to max. 130°F
Wash system	moving wash frame with stainless steel nozzles on 4 sides
Cleansing dosage	automatic, adjustable
Power rinse pump	370 Watt
Water rinse tank capacity	5 gallon
Rinse heating	9kW
Rinse time	adjustable (by factory)
Rinse water temperature	max. 130°F
Rinse system	moving rinse frame with stainless steel nozzles on 4 sides
Optional neutralizing agent	automatic, adjustable
Drain pump	80 Watt
*with open hood and extended drawer	

Connections

Voltage	5-pole CEE-plug, 208 Volt AC, 3 phases, PE, 60 Hz.
Power	21 kW, fused at 3 x 63A
Cable connection	4 x 10 AWG
Water supply connection	G ¾" max. 120°F
Water hardness	2-4° dH
Required water pressure	15 - 40 PSI
Water consumption by rinsie	2.65 gallon per minute rinse
Water drain	Ø 2 inch
Maximum height drain hose	8 inch without syphon
Noise volume	70 db(A)
