G31BLS... BRASS MALE LONG SHANK COUPLING

Brass long shanks are typically used on washdown hoses where the longer shank provides extra fitting retention. 3/4" and 1" fittings are machined brass - larger sizes are cast.

Machined

Cast

G31BLS-075	3/4"	\$11.00	\$9.50	5
G31BLS-100	1"	11.10	10.10	5
G31BLS-125	1 1/4"	28.30	25.50	5
G31BLS-150	1 1/2"	34.70	30.90	5
G31BLS-200	2"	45.50	41.00	5

G32BLS... BRASS FEMALE LONG SHANK COUPLING

Machined

Cast

G32BLS-075	3/4"	13.30	12.20	5
G32BLS-100	1"	11.10	10.10	5
G32BLS-125	1 1/4"	33.10	29.80	5
G32BLS-150	1 1/2"	42.80	38.60	5
G32BLS-200	2"	59.40	53.50	5

G30G... GASKETS

G30G gaskets fit short and long shank couplings.

G30G-100	1"	0.68	0.55	10
G30G-125	1 1/4"	0.67	0.55	10
G30G-150	1 1/2"	0.67	0.55	10
G30G-200	2"	0.81	0.70	10
G30G-250	2 1/2"	0.95	0.77	5
G30G-300	3"	1.35	1.10	5
G30G-400	4"	1.55	1.35	5

Ball-Lock couplings were originally developed by Bauer in Germany for irrigation piping systems. These galvanized steel couplings are economical and are quick and simple to connect. The ball and socket design allows for couplings to be connected even when the parts are mis-aligned, and connections can flex up to 30% in all directions. Extra long hose shanks allow lots of room for multiple clamps. Always use safety clips to prevent accidental disconnection while in service. Other sizes are available upon request.
