

High performance protection

Honeywell Uvex Hypershock™ eyewear delivers the ultimate combination of high-performance protection and aggressive sport-inspired styling. The full frame design is equipped with streamlined padded temples and a molded nosepiece for a secure, comfortable fit.

Offered in three frame colors and a wide variety of lens tints, Uvex Hypershock is available with Uvextreme Plus® anti-fog lens coating for superior, long-lasting fog free vision that lasts up to 10X longer* and provides 2X better scratch-resistance* than our next best coverage.

* Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application. Anti-fog performance based on independent lab test results

Uvex Hypershock™ Photochromic Lens

Uvex Hypershock with photochromic lens offers versatile, sleek, rugged design that transitions from light to dark.

The lens darkening is noticeable within 15 seconds and lens lightening in 60 seconds.

The Hypershock Photochromic lens is offered with matte black or clear frames and available with Uvextreme AF coating.

Ideal for oil and gas, construction, landscaping, utilities, and manufacturing applications.

Hypershock is also 100% dielectric. Can be worn in environments where accidental exposure to electrical charge is possible.

- Meets the ANSI Z87.1-2015 standard

Indoor

Mid Light

Outdoor

Lightweight, wrap-around frame is engineered to fit a wide range of workers, providing increased coverage, side protection and superior peripheral vision

Integrated hinge mechanisms with dual cam action

Soft, molded inserts along the temple provide a comfortable and secure fit

Uvex Hypershock Lenses and frames

Available in additional frames and tints, not pictured here.
