

Brass cam-locks are used where the application requires corrosion resistance or extra strength. For example, they are popular in marine refueling where durability, salt water resistance, and non-sparking features are all important. G65BR couplings are manufactured from copper alloy grade 377 to the Commercial Item Description (CID) #A-A-59326B specification. Female couplers are supplied with locking clips.

BRASS WORKING PRESSURES:

1/2" to 2"	250 psi
2-1/2" to 4"	150
5" & 6"	75
8"	50

Standard gaskets are rated to 105°C (221°F)
